ELA/READING INTERVENTION FOR GRADES 6–8

Pathblazer[®] by Compass Learning[®]: Purpose-built to accelerate students up to grade level proficiency

Solid literacy skills are among the most fundamental components of academic success. **Pathblazer[®] learning acceleration software is the ONLY digital solution** that provides ELA/reading teachers **with a diagnostic component to deliver fully TEKS- and STAAR-aligned content** and move 6th through 8th grade learners up to grade level proficiency. Pathblazer accommodates students working below grade level—or simply struggling with a few key concepts—by starting them at their highest present proficiency levels and facilitating their acceleration **with content ranging from grade 3 to grade 9**. Pathblazer prescribes individualized learning paths made up of fun, motivating lessons while addressing students' TEKS-based skill and concept gaps. Plus, our curriculum fully integrates with leading digital assessments.

FEATURES

- Adaptive screener determines highest present performance level; **automatically assigned diagnostic pinpoints TEKS skill/concept gaps**; gaps-based individual learning paths **ensure TEKS mastery**
- Highly engaging video, animation, audio, graphics, writing tools
- Explicit instruction, supported and independent practice with answer-specific feedback, built-in formative assessment
- Bookmarks student progress; enables content 'chunking'
- Reporting functions to deliver immediately actionable data
- Full integration with Renaissance Learning[®] STAR[®], NWEA[™] MAP[®], Scantron Performance Series[®] assessments for data-driven instructional decision-making
