Contact Definition (the following three contacts are required for enrollment)

Primary Implementation Contact -

This contact is responsible for managing the Istation implementation at your district or campus and will work with Istation representatives. He or she has the authority to decide who will use the program and the manner in which it will be used.

District/Campus Technology Contact -

This contact is responsible for program deployment. Deployment includes authorizing access through the firewall, installation, confirming technology and network capability, and troubleshooting technical issues that arise during deployment. This person is usually the Network Engineer or another person in the district technology office. For the campus level this may be an on-site technician or lab manager; however, district network knowledge is required.

District/Campus Data Contact -

This contact is responsible for uploading student and teacher rosters into Istation.
