

# Summer MATH SPLASH

## PARENT CHALLENGE

*May 8th - July 31st*

While students eagerly await the start of summer vacation, teachers and parents know that it can also be the beginning of the “summer slide.” Researchers say that the average child loses 1.8 months of math skills over the summer break and that it can take teachers 3 to 6 weeks of teaching to get it back. To help your children maintain all of their hard-learned math knowledge, Imagine Math is kicking off the 2017 Summer Math Splash Challenge to keep children engaged while building math skills and self-confidence.

### *How to Enter*

- Sign up your child at: <http://go.thinkthroughmath.com/l/120442/2017-04-12/c521x8> and provide the requested information *by June 30*.
- Encourage your child to **PASS** at least 5 Imagine Math lessons between *June 12* and *July 31*. Your child will then be automatically entered into the **Imagine Math Big Kahuna Grand Prize** random drawing for a Fire Tablet and a solar-powered backpack to start the school year off in style!

**NO RUNNING**

**NO JUMPING**
