

# Summer 2017 Webinar Schedule

---

## Quick Start Webinar

Ready to get started with Imagine Math, but new to the program? Come explore everything Imagine Math has to offer – motivation, adaptive content, quality instruction and live teachers, as well as actionable reports. We'll take a tour of the program, discuss introducing Imagine Math to your students, and create a plan for a successful implementation all in 60 minutes. Ready, set, Quick Start!

## Monitoring Student Progress in Imagine Math

Come explore all the reports Imagine Math has to offer, including our new benchmark assessments! Leave feeling confident accessing reports and interpreting the data. A Customer Success Manager will be part of the session, and there will be ample time for Q&A, so please bring your questions!

## Journaling with Imagine Math

Helping students to better communicate about mathematical ideas is essential to success with the new standards. The use of a math journal in conjunction with Imagine Math provides additional opportunities for students to both build their conceptual understanding of mathematics as well as their ability to effectively communicate that understanding. This session helps teachers understand the power of math journaling along with providing several easy to implement strategies.

# Summer 2017 Webinar Schedule

---

## Managing Pathways in Imagine Math

- Help! My student just finished his grade level pathway! What do I have him work on now?
- How can I best leverage Imagine Math to help my students prepare for state testing?
- We're moving into the end of the school year, and I want to build a custom review for my students. Is this possible?

This 45-minute session will walk you through the basics, as well as the more advanced aspects, of managing the work assigned to students within Imagine Math. A Customer Success Manager will answer the questions above along with any others that you bring regarding how to manage the work assigned to students within Imagine Math.

## Your Summer School Imagine Math Program

Research shows that students typically lose over two months of math learning during the summer months. To help your students avoid the "summer slide," join us for an instructor led, interactive-training on the Think Through Math program. During this session, we will cover:

- An introduction of TTM and how it helps students achieve success
- How to enroll students and launch, with success
- How to best utilize TTM as part of a short and focused summer school program

## **NEW** - Blended Learning with Imagine Math

Blended Learning can be the perfect solution when time or number of devices available prevents a one-to-one implementation of Imagine Math. We will discuss implementation models and best practices for blended learning, explore using Imagine Math for both whole group and small group instruction, review reports within Imagine
